

# Evidence and Investigation

**Grade: Six**

Untangle a wild mystery in the forest using outdoor investigation techniques. Students will solve a wildlife mystery by examining signs of animal and human activity through studying tracks and traces in nature.

**Your 2 hour program includes:**

- ✓ An introduction to dichotomous keys for local plants.
- ✓ Analyze tracks and trail signs to determine animal behaviour.
- ✓ Determine biotic and abiotic factors in the environment.
- ✓ Compare a human impacted environment vs. a non-impacted environment.

*Exploring an immature aspen forest*

*Lodgepole pine forest*

**Science Curriculum Connections:**  
Grade 6: Topic D,E

**Cost: \$5/student**

**Location:**

This program is delivered at the Learning Centre.
